Four board members to be elected during annual meeting

As a member of Northeastern REMC you can have a direct voice in how it operates. Every year each REMC member is given the opportunity to elect individuals to the board of directors. This privilege is unique in that most other electric utilities do not allow their customers to select its board members.

On Saturday, August 26, you will be electing four board members who will be involved in setting the direction of this company. Every member present can vote in each district election.
